With global brands like Rilsan®, Pebax® and Platamid®, unique products like Rilsan® PA11 and leading capacities in Rilsan® PA11 and 12, Arkema's Technical Polymers Division differentiates itself in the industry by providing its customers with global coverage and superior regional service from production and research facilities in Europe, Asia, and the USA.

A global chemical player, Arkema consists of 3 coherent and related business segments: Vinyl Products, Industrial Chemicals, and Performance Products. Present in over 40 countries with 18,400 employees, Arkema achieves sales of 5.7 billion euros. With its 6 research centers in France, the United States and Japan, and internationally recognized brands, Arkema holds leadership positions in its principal markets.

The statements, technical information and recommendations contained herein are believed to be accurate as of the date hereof. Since the conditions and methods of use of the product and of the information referred to herein are beyond our control, Arkema expressly disclaims any and all liability as to any results obtained or arising from any use of the product or reliance on such information; NO WARRANTY OF FITNESS FOR ANY PARTICULAR PURPOSE, WARRANTY OF MERCHANTABILITY OR ANY OTHER WARRANTY, EXPRESS OR IMPLIED, IS MADE CONCERNING THE GOODS DESCRIBED OR THE INFORMATION PROVIDED HEREIN. The information provided herein relates only to the specific product designated and may not be applicable when such product is used in combination with other materials or in any process. The user should thoroughly test any application before commercialization. Nothing contained herein constitutes a license to practice under any patent and it should not be construed as an inducement to infringe any patent and the user is advised to take appropriate steps to be sure that any proposed use of the product will not result in patent infringement.

RILSAN[®] BESN BLACK P20TL DELIVERS OUTSTANDING RESISTANCE AGAINST SOUR GASOLINE FOR JAPANESE CAR OEMs

RILSAN[®] BESN Black P20TL is the polyamide 11 of choice amongst major Japanese car OEMs because of its outstanding resistance against sour gasoline. Only RILSAN[®] BESN Black P20TL can meet the demanding monolayer fuel line specifications of the Japanese car OEMs.

Part Description: Rilsan[®] BESN Black P20TL.

Key performances: RILSAN[®] BESN Black P20TL offers:

- Outstanding resistance to sour gasoline
- Zinc Chloride resistance
- Cold impact resistance
- Flexibility
- Lower permeability compared to monolayer PA12 tube

Process Technology: Extrusion

Sample Application: Automotive fuel lines application - monolayer.

Values Delivered: Rilsan[®] BESN Black P20TL delivers weight and cost reduction as well as provides superior corrosion resistance as compared to metal tubing. Rilsan[®] BESN Black P20TL is easy to process and assemble.

Approval: All major Japanese car OEMs. (Specification details available on request).
